

SH HOTELS & RESORTS SUSTAINABILITY

WATER MANAGEMENT
Protecting precious water resources and providing clean water.

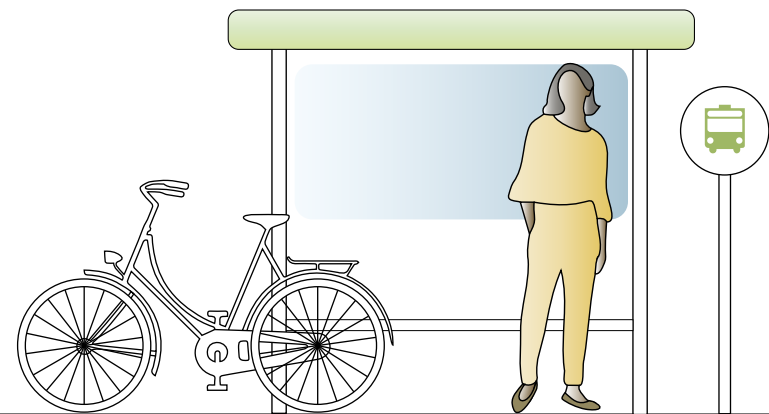

RESPONSIBLE MATERIALS
Relying on sustainably sourced materials to build and furnish our properties and minimizing waste wherever possible.

ENERGY MANAGEMENT
Minimizing energy-related carbon emissions that contribute to climate change through efficient operations and technology.

COMMUNITY GATHERING SPACES AND PROMOTION OF WALKABILITY
Supporting sustainable urban development, walkability, and public access.

HEALTHY INTERIOR
Promoting fresh air and healthy interior environments at all our properties.

1 Hotels' Sustainable Building Strategy relies on the leading sustainable construction and architecture frameworks and organizations to create its standard including LEED, BREEAM and ILFI's CORE Building standard.

BIOPHILIC DESIGN ASSESSMENT
Connecting guests and teams with nature throughout our property experience.

INCLUSION
Creating economic opportunities in the local community, and supporting diverse local businesses.

PROTECTING THE ECOLOGY OF PLACE
Protecting the local lands where we operate, and supporting healthy ecosystems.

EDUCATION
Sharing our sustainability journey with our entire community to inspire others.

UNIVERSAL ACCESS
Ensuring our properties are designed to be accessible by all.

TRANSPORTATION
Providing low carbon transportation options for our guests and team members.
